

# **Greater Gladstone**

## **Manor Association**

**There has been a lot of good talk concerning the lighting of the tree via Next Door "Gladstone". The lights are old and decaying. Arrangements are being made to save the tree for this year. To keep it going and to be able to get other decorations up and maybe have a picnic again at the end of covid we need to keep the association going.**

**We need volunteers to do several jobs. One to help with emails, one to help with treasury, one to help me with keeping us going for now. We can have elections for offices when covid is over.**

**We need a few people to help with Christmas decorations that will need a truck to transport from a garage two blocks away and need to be assembled on the island. The firemen will take down old and put up new lights on Nov 28th at 10am. I bought a new star if it comes in time, if someone is good at it, maybe the old one can be fixed up at least for next year it was made by a Gladstone member.**

**We are having a meeting Tues night 6 pm at the island 15 minutes tops, please bring your pre-written households names, address and email address to pass along any other info. Also if you would like to donate to**

**the tree and island upkeep please make out a check to the Greater Gladstone Civic Association. Wear a mask, social distance and bring your information with you. If you can't make the meeting please leave your info at 10 Gladstone on the conner of DeForest. We want to make sure all are included. Please inform your neighbors. Thx  
Roe Stewart**
